Description

Glass frame (can be mirrored) friezed fruit wood st LXV on which we fixed small elements of different colored glasses constituting mosaic patterns of flowers. The frame is in 4 alternating parts light blue or black background, inside molded oval cut. Historically, micromosaic pieces were made at the end of the 18th century until the end of the 19th century in Venice, Rome and Florence. Initially, it was mostly Italian landscapes, monuments and ancient ruins that were brought back as souvenirs of travel. Floral subjects have gradually replaced the traditional themes. **POSSIBILITY OF SHIPPING**, reinforced packaging reinforced, recommended with insurance and parcel number for tracking on the internet (shipping costs). **SAONE ANTIQUITES** store 149 rue de la levée 01750 ST LAURENT
