

Pair Of Large Regence Style Gilt Wood Corner Consoles - France Mid 19th Century

1 800 EUR

Period : 19th century

Condition : Très bon état

Material : Gilted wood

Width : 29cm

Diameter : 38cm

Height : 56cm

Description

Pair of large gilt wood corner consoles, Regence style, mid 19th century, to be suspended on the wall in a corner.

Beautiful decoration (arabesques, diamonds background and Satyr mask). The consoles are gilt with fine gold and topped with red silk (Tassinari & Chatel).

Our corners are a rare offer : we usually find such items but they are quite often small sized - about 20cm. Ours are actually very large (56cm high). The last pictures are made to measure the size compared to other objects.

Our pieces are in excellent condition : gilding with fine gold has been cleaned by our gilder.
