Description

Well, I may have books and the computer, what am I ... during this G7 !
Fortunately I had taken some pictures and a drawing board in the "ripening" to take care ...
There, I just found this strange drawing which, although made on a paper of the "old factories Canson and Montgolfier" has a small side of the East, Hungary, Czech Republic or even Germany Artists like Otto Mueller ...
This "bathing in the moonlight" shows us three girls drying out of the bath at the edge of a lake, a plateau fruit at their feet. If the subject brings him closer to the Symbolist, the treatment with this angular side is closer to the Expressionists.
No visible signature, charcoal and stencil on paper 49 X 32 cm, a small lack in the upper right and a small tear just below.
