

Antique Nepal Milk Cruche

750 EUR

Period : 19th century

Condition : En l'état

Description

If it happens that sometimes we find in Europe of these jugs or milk pot, they are most often new or unfortunately unfortunately stripped and polished, thus losing their patina of use. If, by putting your nose in it one understands instantly why, it is still a pity ...

For the moment, it is under triple thickness of plastic !

It measures 25 X 21 X 14 cm, bears the characteristic decoration of intertwined streaks such as ropes, the bottom has been formerly restored and the whole is covered with a thick crusty patina of use, glossy in places.

A very beautiful ethnic object worthy of a museum ...
