<https://www.proantic.com/en/522213-pitcher-in-tin-caen-and-its-region-late-eighteenth-early-nineteenth-century.html>

### Description

Shaped shoulder, flared foot. Tassel tree and wide flat tongue. Robust handle with internal median ridge. Patronymic mark: F \* MARION. The absence of punching indicates a manufacture of the late eighteenth century (abolition of corporations and control of cities in 1791) or the first half of the nineteenth century (period during which the metric system established since 1795, struggling to prevail ). Height at the lid: 23.5 cm. Late eighteenth-early nineteenth century. Beautiful condition, some micro picket zones with "orange peel" effect. Free shipping by COLISSIMO for metropolitan France.
