Description

Description : chiseled, gilded, bronze, green water marble. These beautiful candelabra are made of a marble vase. Each vase is decorated with handles in the form of entangled serpents, the lights emerge from a basket of fruits; extremely refined work with scrolls and a rosette. The pedestal is in the shape of a pedestal with a right side and a second base in bronze. It is a very beautiful model in the spirit of the great ornamental bronzes of the XVIIIth century. A twisted rod topped with a finial between the arms visually balances this beautiful light. If you wish to receive a video of this object in order to better "understand" it, or detailed photos, do not hesitate to ask us. State : very good state. A crack without fragility on each base, it is almost invisible. The sockets are not drilled but the foot was organized for the passage
