

## System Cane, Flute Cane, Circa 1900

350 EUR

Period : 20th century

Condition : Usures d'usage

Material : Other

Length : 89 cm

### Description

System cane. Fancy cane from the 1900s, this type of cane was generally sold at events such as world fairs, they were inexpensive and more intended to amuse their owner than to be used for support. It consists of two parts, the upper part, flute part, is made of metal, the lower part is made of wood. The flute works. The entire cane measures 35,03". Some lack of paint, but the whole remains in good condition.
