Description

Interesting coat rack with 1970s design.
It is made up of 6 stainless steel branches with a refined shape reminiscent of rackets.
these branches come together in a central trunk resting on a black lacquered metal base. the whole is well balanced and harmonious. super practical and very 70's design.
some small indentations barely visible on the base.
a beautiful coat rack with an unusual shape. we deliver and ship anywhere in the world, please contact us for an accurate quote.
