

Terracotta Sculpture : "putti Candle Holder Project"

800 EUR

Period : 20th century

Condition : Très bon état

Material : Terracotta

Description

This incredible terracotta candlestick project dates from the first years of the 20th century, at the crossroads of the Symbolist vein and the obvious influence of Rodin. On relatively small dimensions, 21.5 cm high by 8 cm wide, the sculpture is teeming with characters: a nymph and five putti climbing trees or simply seated, treated in outline which, by its mastery, shows that it is the work of a large hand, unfortunately anonymous. Small old scratches at the base, very beautiful patina, presence of an old label under the base.

Do not hesitate to ask us for photos or additional information by email or phone.
