Height : 38 cm

Description

Maurice JOURNAUX (XIX-XX °)

Oil on canvas 38x55 cm "Riverside" Around 1930

Signed lower left

His biography is poorly known, but we know of this sincere painter, especially landscapes during the interwar period and in particular views of Paris, like many painters of his generation. The riverside that we present is close to Impressionism, a beautiful classic construction in a limited range of colors and a sensitive touch
