Description

Strips of wallpaper made by the Zuber & Cie factory in Rixheim, (Haut Rhin) France, representing a view of Brazil, animated by characters in a lush landscape. Our wallpaper is mounted on wood and has a wide variety of vibrant colors and great attention to detail. Rare testimony of my Zuber production, which has come down to us in very good condition. Around 1830, early 19th century. Private collection. Dimensions: h.280 cm x l.57 cm. Founded in 1790, installed in Rixheim (France) in 1797 in a former Teutonic knighthood, it still prints today, making it the oldest wallpaper manufacturer still in activity. The Zuber manufacture, a great specialist in panoramic decorations very much in vogue at the beginning of the 19th century, will meet with world renown.
