Description

Beautiful bronze from the 19th century depicting the famous Venus de Milo, perhaps an edition print from the Maison Barbedienne, but unsigned. Decidedly the famous Venus does not really leave insensitive with her beautiful hips, the drape of her tunic and her silhouette with curves so harmonious. This sculpture has a nice patina which sometimes lets the bronze appear slightly on the reliefs, small wear of the patina due to the rubbing of successive dusting but this does not detract from the beauty of the object. Height: 34.5 cm / Weight: 3.085 g Do not hesitate to ask us your questions, we are at your service. _____
