Amazing shape and pretty red-brown patina for this bronze vase. It rests on a cylindrical base with two evolutions, decorated in medallions with floral motifs. The upper floor, represented by a larger ring, is also decorated with a floral motif, but in full. The body of the item has a stylized Quilin decoration on each side. Cranes in the clouds form the handles.
Beautiful Japanese quality, dating from the end of the 19th century, Meiji period, guaranteed !!
Condition, apparently in excellent condition, one of the handles has been reinforced with pewter, a small shock on the neck, and an (old) bronze rectangular part has been added, please look carefully at my detailed photos, I do not hide anything!
