Condition : Très bon état

Material : Sterling silver

Length : 25 cm

Diameter : 13 cm

Description

Very beautiful pair of solid silver candlesticks from the goldsmith Den Bosch, Holland 1829. Our candlesticks are obviously very influenced by English silverware, in particular Paul Storr, since the rise of William III of orange, on the English throne, the mixtures stylistics are numerous.

Our tripod candlesticks flanked by mermaids placed on a triangular terrace resting on balls, the binet also placed on a sphere carrying chains.
