Description

"Pair of African open bracelets" chiseled and engraved bronze, 15 cm in diameter for one, 14.5 cm for the other, for a height of 4 cm.
Origin Africa (Ivory Coast?), Circa 1950.
Of a very good quality of execution, these bracelets are rarely found in pairs as here. Very refined, the ring is hollow and has in addition engravings of the edges of gadroons and tori in relief.
Well, there it is, a page is turned: after 11 years of occupation, we are leaving our official apartment in Biarritz. But Nature and I have a horror of emptiness, I let you imagine everything there was inside and the house where we are grouping the move may be large, I will have to separate little by little of a certain number of objects, furniture and paintings...
