Description

Beautiful vanity mirror or table mirror dating from the 2nd half of the 19th century.

it consists of a beautiful frame in solid mahogany with an adjustable foot at the back thanks to its tightening screw, so you can orient it as you wish. the pointed facade of this vanity mirror is very nicely crafted with a hammered decoration all around, a work reminiscent of that of certain 20th century artists such as Desprès.

the silver metal is therefore worked on the entire front of this mirror and the effect is very decorative.

very good general condition, an elegant and very decorative mirror, easy to place.
