Description

Moud Carpets, originally from the region of the city bearing the same name, located about 300 kms from Macchad, also known for its wonderful carpets.
The Moud are very high quality carpets, we recognize two types: the "Moud Mahi", with herati patterns having a star-shaped medallion of beige color, either in shades of light red, light blue, orange and the "Moud Garden" only decorated with Herati motifs without medallion like our model.
This beautifully crafted carpet is made of wool slightly mixed with silk, the whole on a cotton weft for a density of approximately 450,000 knots per M2. The knotting is always very tight, which makes it possible to obtain resistant rugs, and therefore very durable over time.
