Description

Kilim Bessarabien Production in the 1990s .
Kilim woven with hand-spun wools in Romania according to ancient techniques. These wools do not have the regularity of industrial wools and allow a weaving identical to that of period carpets.

DYES: They are of vegetable or organic origin, such as indigo, pastel, madder, cochineal or gaude. The dyeing techniques we use are the same as those used in the 13th century. The dyes bring a unique depth to the colour that is impossible to reproduce with chemical dyes. This model is inspired by old carpets from the Ukraine or Moldavia of the XIX century of French inspiration to which we give the generic name of Bessarabian carpets.
