### Description

Pair of columns in perfect condition of Doric style in composite stone dating from the end of the 19th century or the very beginning of the 20th century from a building in Haute Savoie. They are made up of a very slightly conical barrel with an average diameter of 23 cm with a molded base with a diameter of 37 cm and an added capital, which allows us, if necessary, a height adjustment. The section of the capitals is 38 x 38 cm. A pair of bases, as is, is also available with a height of 44 cm and a section of 38 x 38 cm.
