What is rare by this worktable is the size and that it is still in very good condition, of course you can see that it was used, but for this type of lacquer work it is in good original old condition.

And also what is very rare, there are a lot of sewing tools and mounts still there.

Circa 1850-1870

The height of the table is: 64cm (closed) the top is: 55 / 37 cm.

in very good condition, very complete!

Nice to see is that the silk compartment is still there.
