Description

Superb 19th century bronze sculpture of an antique woman holding an urn on her shoulder. It is presented on a square black amber base, surmounted by the statue itself presented on a bronze circular base. The woman is dressed in a finely chiseled drape that she holds in her hand, sandals on her feet. She wears wavy hair, attaches and supports on her shoulder an urn with handles from which a gilded bronze flame comes out. Quality work of great finesse, very decorative and in excellent condition.
