Silver Gelatino Bromide Negative Plate Medical Curiosity Object - Operation Scene

200 EUR

Period : 19th century

Condition : En l'état

Material : Glass

Length : 12 cm

Width : 9 cm

Description

Historical testimony of medical and hospital history, and at the same time an object of curiosity, a negative plate in glass with silver gelatino-bromide. The scene speaks for itself, we see interns staged during an operation. These medical subjects are quite rare and each negative is a unique piece. (The positive view is just to get an idea of the subject, it is not the product for sale). Photographer: unknown. Date: late 19th / early 20th century. Others are for sale, don't hesitate to contact me. Condition : THE PHOTOS SERVES DESCRIPTION. Please note that the main subject of the negative is very well preserved except for 2 scratches on the sitting nurse (the frame visible on the photos comes from the lighting used to take the picture to put the negative for sale). Dimensions: 12 cm - 9
