

Collectible Cane / Popular Art / Fables De La Fontaine

550 EUR

Period : 19th century

Condition : Plutôt bon

Material : Solid wood

Length : 93 cm

Description

Interesting finely carved cane evoking 2 fables of the Fountain. The sculpted pommel of the wolf and the lamb and lower down the crow holding a cheese in its beak and unfortunately, missing, the fox which had to stand lower on the cane. I think this cane is solid walnut.
