

Miniature Louis-philippe : "young Woman With Jewelery"

280 EUR

Period : 19th century

Condition : Très bon état

Description

French school : "portrait of a young woman with jewelry", miniature on ivory from the Louis-Philippe period, diameter 6.1 visible, mounted in a black square frame with bronze marie-louise 11.6 X 11.6 cm.

This amiably chubby young woman has put on her most beautiful blue flower-patterned dress to pose in front of the miniaturist who has delicately chiseled with the tip of her brush necklace and earrings highlighted by the hair raised in an artistic bun.

If I haven't seen a signature, perhaps hidden under the Marie-Louis, the precision of the touch and the quality of the skin tones involve a great hand. Perfect condition, the visible defects are on the glass.
