Description

Chandelier P. Maynadier, Parisian bronzier (circa 1925-1930) and Muller Frères Lunéville,

ART Deco chandelier in silver metal, with 4 sconces decorated with molded glass tulips with stylized flower motifs.

The silver-plated frame is composed of a base with a stylized Art Deco geometric pattern from which 4 long parallel rods emerge leading to a dome composed of 4 rounded petals. The glassware of the dome is particularly worked, mixing a skilful set of frosted glasses and transparent glasses.

Once lit, you will be able to contemplate these luminous pearls crossing the diffused and soft light of the frosted glasses.

The glassware is signed in the mass "P."
