Description

Beautiful and rare ivory pipe, the furnace with finely carved decoration of a bust and head of a bearded man of oriental character, its base is underlined by an eagle's head, the lid of the furnace is topped with a crescent of Moon. ** Port work of the Dieppe city, XVIIIth Century **The part ensuring the connection of the furnace to the suction tube is also in richly worked ivory with a pattern of berries, foliage, fruit etc. The suction tube, octagonal in shape, is made of ebony, the spout in horn of dark color. This pipe can be considered to be in good condition. However, there are slits on the upper side parts of the furnace, behind the character's turban; a noticeable slit on the forehead, a tiny lack of the vine leaf at the base of the tube, a small lack at the base of the fretel forming a

_____ Additi onal information: Ivory specimen of Elephantidae spp (I / A) pre-agreement, prior to June 1, 1947 in accordance with CE Regulation 338/97 of 12/09/1996 art.2-Wmc. For an exit from the EU, a CITES re-export will be necessary, this being the responsibility of the future purchaser. The issuance of such a document is not automatic. The future purchaser will have to inquire about the conditions of re-export because some countries do not allow the introduction of ivory specimens of Elephantidae on their territory.
