

Viewer - Stereoscope

200 EUR

Period : 20th century

Condition : Bon état

Length : 14 cm

Height : 6,8 cm

Depth : 14 cm

Description

Unis France brand stereoscopic viewer with trapezoidal shape.

This viewer can read stereoscopic paper and glass plates measuring 4.5x10.7.

At the front, two lens eyepieces are adjustable with a dial, on the other side is a frosted glass plate to diffuse the light, and above, a mirror to reflect the light.

Note that one of the two lenses has a shine on the inside, and that the frosted glass plate has a lack, but this does not prevent viewing the plates.

To complete this object we join 5 boxes of glass plates, representing various French landscapes, boats, planes and others from the 1920s.

French work circa 1900/1920.
