

Twentieth Terracotta Child Bust

380 EUR

Period : 20th century

Condition : Très bon état

Material : Terracotta

Height : 25 cm

Description

Superb sculpture of a child's bust in terracotta from the twentieth century. This bust of a child of great realism is raw earth, the child is presented with his face slightly tilted, his gaze a little haggard. We can clearly see the artist's work with the fingerprints. Quality object in very good state of conservation, very decorative.
