Description

Magnificent marble wall fountain, built with various pieces of marble joined together. The fountain is made up in pieces as it was used in the period in the Veronese-Brescia area. At that time it was customary to use even different pieces of marble and stone to build the fountains. The fountain was assembled for display, it must be disassembled, restored and reassembled in the buyer's garden by a mason. We can also provide the restoration service through our trusted expert restorer
