Table Presenting A Painter's Palette In An American Crate

680 EUR

Period : 20th century

Condition : Très bon éta

Length : 59

Width : 45,5

Description

Table presenting a painter's palette dating from the early or mid-twentieth century. This thin wooden plate pierced with a hole for passing the thumb and on which a painter spreads and mixes his colors has in turn become, over time, a surprisingly lively abstract painting. In cheerful colors, this authentic painter's palette is a unique example. An American box serves as its backdrop.
