About ... Jaque SAGAN (born in 1927)
First a Music-hall artist, he started working with ceramics in the early 1950s in Vallauris. He executes ceramic masks and often very original utilitarian objects. Close to Jean Derval, Jacque Sagan is part of the new wave of artists present in the early 1950s in Vallauris. Gathered around the personality of Picasso, they are committed to promoting artistic ceramics.
