#### Description

"Very important bronze lantern, known as a Louis XVI style" vestibule lantern ".

Important bronze vestibule lantern.

Cage with four curved acid-etched glass panels, one of which opens into a door.

A frieze of pearls on four balls at the base and the same at the top of the panels and the uprights.

Scraps of pearls, at the top of each panel raised in the middle by a falling knot.

The original light has been replaced by an LED ball to current standards.

First half of the 19th century.

Height 97 cm. Diameter 55 cm.
