### Description

Superb object, rare ironwork, plate of a Louis XIV period door knocker, entirely cut iron, tool openwork, chased with a small chisel, engraved in a decoration a little difficult to locate because of the abundance of dotted lines, a fleur-de-lis, two animals facing each other, foliage framing the head of a mustached feline ... other decorative elements perhaps, nothing very clear.

Dimensions = 24cm x 13cm, for a knocker of about 15cm

Condition is good. There is a beautiful and touching repair on the back, two pretty patches that are not visible on front.

French work, circa 1680/1720.
