Description

Classic model of a covered tripod carafe from the LXV / LXVI transition period, with its original turned wood side grip. Old French work from the second half of the 18th century, in brass formerly silver plated; this very worn silver plating has now almost completely disappeared but the golden patina present is very beautiful and the piece can quite remain as it is or be simply cleaned ... Good general used condition despite some very slight small dents old on the body. Completely original.
