Length : 18,5cm

Width : 7cm

Description

Superb key, very interesting: the design of the ring, beautiful and rare, the square-section baluster base, the powerful 15mm diameter rod ! marked with the N ° XII, slotted at its end, the thick bit still Gothic, with doubled openings, and also (which cannot be seen): the original tin plating of this key, it was plunged into a hot pewter bath to protect it from corrosion. As the key has never been used, it has kept the roughness of this metallic plunge, which reminds me of a second key, or emergency key, administrative key for an official building no doubt ...

sixteenth century, very close to the French Renaissance spirit. Rare object, quite impressive.
