### Description

Rare table by designer ENRICO BALERI Knoll introduced the Mega Table in the early 1980s, which he designed to resemble a stacked dolman. The table features a polished top, the edges unpolished, celebrating the Sardinian granite in which it was built (small chip on the bottom of one of the legs, see photo). A rare piece for a raw minimalist interior...perfect for a raw minimalist interior or as a garden table and to finish as a desk !!!!
