Description

Woman Washing Clothes In The River, 17th Century Francesco GUARDI (1712-1793) Beautiful large Italian landscape by an old master representing characters in a river landscape, oil on canvas. Stunning panoramic view of the river landscape with flowing figures working in the undulations of the hilly river landscape, all under a cloudy white and azure sky. Excellent condition for his age, markedly similar to Guardi's unique painting style that would influence other painters of the time and pre-empt Impressionism nearly 200 years later with his flowing style and movement. Framed. Dimensions: 35.5 "x 18.5" framed
