Description

"Grand Tour": large Dionysian crater, second half of the 19th century, patinated bronze medal 24 X 36 X 26 cm. This model is similar to the famous "Warwick vase" with in particular the same grips in the form of intertwined vines, but the decor is on the theme of vines and wine, adorned with trellises and busts of Demi-Gods or heroes. (Hercules, etc...). Very fine carving and patina, its beautiful dimensions make it an object of great decoration. Do not hesitate to ask us for photos or additional information by email or phone.
