Description

This sculpture produced in the first half of the 20th century, by an unidentified artist, is beautifully crafted with a two-tone green patina and a green marble terrace whose base is polished and the surface carved in the manner of a rocky ground. A black marble serves as a support for the whole. With a height of 54 cm, a length of 42 cm and a depth of 14 cm this sculpture does not go unnoticed, this deer in majesty is capped with antlers with eight horns, impressive!
