Description

Imposing animal bronze: lioness devouring an antelope with a dark green painted patina.

XIXth period, unsigned.

Is this sculpture close to the works of Antoine Louis Barye?

I did not find this model of antelope with the paw in the air, even from other artists.

Good condition, no shock, no deformation, beautiful finesse of the carving and details, slight wear to the paint, beautiful shine.

Length: 77 cm.

Height: 20 cm.

Width: 24 cm.

Weight: 14,100 Kilograms.
