Description

Two rare objects to find, in this condition, with the original gilding, (a little tired anyway).
A pair of baluster vases, bronze, square foot with floral garland, two handles decorated with foliage, without any trace of screw mounting ... these two vases ring like bells, and have a slightly hammered surface under gilding. Their cover (probably cast in two parts), are openwork and chiseled. On the base, a signature and a hallmark have been matted,
High quality work, which I think mid-19th century, I do not know more.
Dimensions: approximately 25cm x 15cm.
Weight, approximately 1.1kg each.
