Our chest of drawers has the most representative and prestigious codes and patterns of the transition style. In addition, the cabinetry and marquetry work is of very good quality. All these clues suggest that it comes from the workshop of a renowned Parisian master cabinetmaker.

Very good condition, original marble top and without gluing, the five period locks work with their key, itself original and superbly chiseled in gilded bronze.

Our chest of drawers has been completely restored to its original condition by our workshop with the application of a natural varnish with a pad using traditional methods.
