Description
-------------

Very beautiful glass cooler in silver plated brass. It has an elegant oblong shape surrounded by a molded ring slightly curved in the middle and a notched crown to receive 10 glasses punctuated by scalloped tongues and hemmed inwards, the whole resting on a molded pedestal. Beautiful ornamentation of the grips in the form of crossed foliage. If the silvering is well preserved below and inside, the outside of this beautiful and rare object, only contains traces of silvering. However, this cooler has a consistent color and appearance.
