Description

Imposing and rare full-length portrait of a notable family in acidulous or even soft hues -

Signed piece but difficult to decipher -

Treatise removed from the characters, from the forest landscape -

Triangle perspective with the dominant father, the mother below, the studious children staring at us ironically -
Touching XIX testimony, of a time when we still ordered portraits, where the photo had not yet trivialized everything -

Beautiful condition except two small holes at the bottom left, a wetting at the bottom -
