Description

This piece of furniture is a curiosity, it does not respect any manufacturing codes. I think it's a piece of furniture that was made for a business. Certainly for a passage room with little clearance, this bookcase is shallow. It is therefore a piece of professional furniture. This 19th century manufacture is in solid oak. The desk top opening from below is ultimately very practical and stable. And offers a nice work surface (50 / 92cm). The interiors are cleaned and glazed. Free shipping for France.
