Description

Exceptional pair of bronze and silver candlesticks from the end of the 18th century or the beginning of the 19th century, difficult to qualify given the originality and the technique, can be foreign work? No visible punches! But a remarkable work of goldsmith! In very good condition with their original patina, sold in their juice!

Provenance castle! Very racy and very decorative at the same time! Height of 26 cm by 16 cm wide at the base forming an openwork bowl, very crafted! Clamp screw changed to one of them. Do not miss ! Visually stunning !!
