Description

Mathieu LIEVOIS in Séné in Morbihan (West of France)

Superb and very large contemporary ceramic vase decorated with crystalizations on a blue, cream and red background.

The shape is, as is like often, generous and simple, very refined (of Japanese inspiration ?) and just enhanced with discreet projections / braids at the level of the collar, with a narrow heel compared to the size and shape of the vase

Sizes approx 37cm height and 28cm diameter; the piece is very large compared to the other pieces already seen by this ceramist
