### Description

Crystalline glass vase with double handles, on a shower stand and in the Medici shape, with hand-painted flower decorations, it dates from the end of the 18th century, the beginning of the 19th century, it is in perfect condition. The Manufacture Royale de la Grunja is located in the commune of real Sihio de San il defonso, in the province of Sergovia in Spain. The Mannufacture Royale was built under the reign of King Philippe V in the 18th century. The original building having been the victim of a fire in 1770, a second crystal factory was built the same year under the reign of Charles III;
