### Description

Sculpture cast of Art bronze patina medal of a young woman running, hunting butterflies, her net in her hand, her light tunic fluttering in the wind, highlighting her feminine forms. The base is in green onyx with a frame four-legged golden. The whole is in good condition. POSSIBILITY OF SENDING, careful reinforced packaging, by registered mail with signature, insurance and internet tracking by number (shipping costs). On the last photos we can see another sculpture of FERRAND (a young man) in the same dimensions which could constitute a pair. I also have a pendulum which is visible on the photos and in my objects for sale on Proantic which could be joined to this pair and would make it possible to make a beautiful set because treated in the same way and from the same time.
