

## Pair Of Large Flanders Carved Wood Facing 15th Crow Character Portrait

3 499 EUR

Period : Before 16th century

Condition : Bon état

Material : Oak

Length : 19

Width : 19

Height : 50

### Description

Rare pair of carved oak corbels from the end of the 15th century, Flanders or Southern Netherlands. Very beautiful architectural elements as a pendant, representing the portrait of a woman with her eyes raised and a man with his head turned to the left. The composition of the whole suggests that the two sculptures were originally placed opposite each other. Old visible external consolidations, pieces of wood formerly assembled to strengthen the elements. Very beautiful expressions.
